Jacob,

Do you want the email as public comment to explain the context of the pictures?

Joanna,

Please add the attached historic aerials from Google Earth Pro as a public comment for the February 12, 2020 Planning Commission public hearing on Coastal Development Permit No. 13-19 / Design Review 2-19. I will be out of town and not in attendance in person on the 12th but wanted to participate in the public hearing by providing this additional relevant information for the Planning Commission's consideration. The aerials show the location of the project over time starting when the GP mill was still in operation through mill closure, relocation of the demonstration chalet currently known as the "Crow's Nest" that was a model chalet of one of the Union Lumber Company's subsidiary brands, and the eventual removal of the greenhouses.

Regards,

--Jacob
