

COASTAL DEVELOPMENT PERMIT FINDINGS

1. The proposed development as described in the application and accompanying materials, as modified by any conditions of approval, is in conformity with the City of Fort Bragg's certified Local Coastal Program and will not adversely affect coastal resources;
2. The project is in conformity with the public access and recreation policies of Chapter 3 of the Coastal Act of 1976 (commencing with Sections 30200 of the Public Resources Code);
3. The proposed use is consistent with the purposes of the zone in which the site is located;
4. The proposed development is in conformance with the City of Fort Bragg's Coastal General Plan;
5. The proposed location of the use and conditions under which it may be operated or maintained will not be detrimental to the public health, safety, or welfare, or materially injurious to properties or improvements in the vicinity;
6. Services, including but not limited to, water supply, sewage disposal, solid waste, and public roadway capacity have been considered and are adequate to serve the proposed development;
7. The project, as proposed, will neither be subject to nor increase instability of the site or structural integrity from geologic, flood, or fire hazards due to project design, location on the site, or other reasons;
8. The project, as conditioned, will not have significant adverse impacts on site stability or structural integrity from geologic, flood, or fire hazards due to required project modifications, landscaping, or other conditions;
9. There are no alternatives to development that would avoid or substantially lessen impacts on site stability or structural integrity; and
10. The resource as identified will not be significantly degraded by the proposed development.

DESIGN REVIEW FINDINGS

1. Complies with the purpose and requirements of this Section;
2. Provides architectural design, building massing, and scale appropriate to and compatible with the site surroundings and the community;
3. Provides attractive and desirable site layout and design, including building arrangement, exterior appearance and setbacks, drainage, fences and walls, grading, landscaping, lighting, signs, etc.;
4. Provides efficient and safe public access, circulation, and parking;
5. Provides appropriate open space and landscaping, including the use of water efficient landscaping;
6. Consistent with the General Plan, any applicable specific plan, and the certified Local Coastal Program; and
7. Complies with and is consistent with the City's Design Guidelines.

SUBDIVISION FINDINGS

1. The proposed subdivision, together with the provisions for its design and improvement, is consistent with the General Plan, and any applicable Specific Plan;
2. The site is physically suitable for the type or proposed density of development;

3. The design of the subdivision or the proposed improvements are not likely to cause substantial environmental damage or injure fish or wildlife or their habitat;
4. The design of the subdivision or type of improvements is not likely to cause serious public health or safety problems;
5. The design of the subdivision or the type of improvements will not conflict with easements, acquired by the public at large for access through or use of, property within the proposed subdivision;
6. The discharge of sewage from the proposed subdivision into the community sewer system would not result in violation of existing requirements prescribed by the California Regional Water Quality Control Board;
7. There are no indications of adverse soil or geological conditions and the subdivider has provided sufficient information to the satisfaction of the City Engineer or other applicable review authority that the site is appropriate for the proposed development; and
8. The proposed subdivision is consistent with all applicable provisions of the Inland Land Use and Development Code, any other applicable provisions of the Municipal Code, and the Subdivision Map Act.

GENERAL FINDINGS

1. The proposed project is consistent with the purpose and intent of the zoning district, as well as all other provisions of the Coastal General Plan, Coastal Land Use and Development Code (CLUDC) and the Fort Bragg Municipal Code;
2. The design, location, size, and operating characteristics of the proposed activity are compatible with the existing and future land uses in the vicinity;
3. The site is physically suitable in terms of design, location, shape, size, operating characteristics, and the provision of public and emergency vehicle (e.g., fire and medical) access and public services and utilities (e.g., fire protection, police protection, potable water, schools, solid waste collection and disposal, storm drainage, wastewater collection, treatment, and disposal, etc.), to ensure that the type, density, and intensity of use being proposed would not endanger, jeopardize, or otherwise constitute a hazard to the public interest, health, safety, convenience, or welfare, or be materially injurious to the improvements, persons, property, or uses in the vicinity and zoning district in which the property is located; and
4. For the purposes of environmental determination, the project is exempt from CEQA, pursuant to the California Environmental Quality Act (CEQA) 15303.
