

18.22.020 - Purposes of Commercial Zoning Districts

The purposes of the individual commercial zoning districts and the manner in which they are applied are as follows.

- A. CN (Neighborhood Commercial) zoning district.** The CN zoning district is applied to areas of the City that are appropriate for small-scale facilities providing convenience shopping and services for adjacent residential neighborhoods. The maximum allowable residential density within the CN district for the residential component of a mixed use project is 12 dwelling units per acre; the maximum floor area ratio (FAR) is 0.40. The CN zoning district implements and is consistent with the CN land use designation of the General Plan.
- B. CO (Office Commercial) zoning district.** The CO zoning district is applied to areas of the City that are intended to serve the office and institutional needs of the community that cannot be accommodated within the CBD zoning district. Other related and office-supporting uses may also be allowed. The maximum allowable residential density within the CO district for either the residential component of a mixed use project or multifamily dwellings as a primary use is 24 dwelling units per acre; the maximum floor area ratio (FAR) is 0.40. The CO zoning district implements and is consistent with the CO land use designation of the General Plan.
- C. CBD (Central Business District) zoning district.** The CBD zoning district is applied to the core of the downtown which is the civic, cultural, and commercial center of the City. The CBD zone is intended to accommodate retail stores, government and professional offices, theaters, and other similar and related uses in the context of pedestrian-oriented development. The maximum allowable residential density within the CBD zone for the residential component of a mixed use project is 40 dwelling units per acre; the maximum floor area ratio (FAR) is 2.0. The CBD zoning district implements and is consistent with the CBD land use designation of the General Plan.
- D. CG (General Commercial) zoning district.** The CG zoning district is applied to areas of the City that are appropriate for less compact and intensive commercial uses than those accommodated within the CBD zone. Allowable land uses are typically more auto-oriented than pedestrian-oriented, and may include automotive and service-related uses, a wide range of retail stores, including those selling large products (appliances, home furnishings, building materials, etc.). The maximum allowable residential density within the CG district for the residential component of a mixed use project is 24 dwelling units per acre; the maximum floor area ratio (FAR) is 0.40. The CG zoning district implements and is consistent with the CG land use designation of the General Plan.
- E. CH (Highway Commercial) zoning district.** The CH zoning district is applied to sites along Highway 1 and arterials at the entry points to the community. Allowable land uses include lodging, restaurants, and retail stores. The maximum allowable residential density within the CH district for the residential component of a mixed use project is 24 dwelling units per acre; the maximum floor area ratio (FAR) is 0.40. The CH zoning district implements and is consistent with the CH land use designation of the General Plan.

(Ord. 930, § 2, passed 06-12-2017)

18.22.030 - Commercial District Land Uses and Permit Requirements

- A. General permit requirements.** Table 2-6 identifies the uses of land allowed by this Development Code in each commercial zoning district, and the planning permit required to establish each use, in compliance with § 18.20.030 (Allowable Land Uses and Planning Permit Requirements).
- B. Requirements for certain specific land uses.** Where the last column in Table 2-6 (“Specific Use Regulations”) includes a section number, the referenced section may affect whether the use requires a Zoning Clearance, Minor Use Permit, or Use Permit, and/or may establish other requirements and standards applicable to the use.
- C. Findings for Use Permit or Minor Use Permit approval.** The approval of a Use Permit or Minor Use Permit for a project within a commercial district shall require that the review authority first make the following findings for the zoning district applicable to the site, in addition to the findings required by § 18.71.060 (Use Permit and Minor Use Permit):
- 1. CN (Neighborhood Commercial) district.** The use is designed and intended to serve the local neighborhood and not a broader service area, and is not of a size as to require a clientele larger than the neighborhood market area.

2. CO (Office Commercial) district. The use acts to support primary uses in the zone, or clients or visitors of allowable permitted uses.

3. CBD (Central Business District) district. The use complements the local, regional and tourist-serving retail, office and services functions of the CBD, and will not detract from this basic purpose of the CBD. Uses proposed for the intense pedestrian-oriented retail shopping areas of the CBD, which include the 100 blocks of East and West Laurel Street, the 300 block of North Franklin Street*, and the 100 and 200 blocks of Redwood Avenue, shall be limited to pedestrian-oriented uses on the street-fronting portion of the building.

* Code reviser’s note: The language in this section has been revised to refer to the intended area of the downtown core.

4. CG (General Commercial) district.

- a. The uses generally require larger display and/or storage areas; and
- b. The use is not dependent on heavy customer traffic per square foot.

5. CH (Highway Commercial) district.

- a. Secondary uses oriented to local clientele may be permitted where the primary use of a site is oriented to or serves visitor, regional, or transient traffic; and
- b. Uses oriented to local clientele may be allowed where visitor-oriented uses are precluded because of environmental concerns or other site specific constraints.
