Hello Jessica and June,  
Here is a .pdf for inclusion in the agenda packet for the Jan. 24th meeting.

It has a link within it to a google drive where people will be able to view the agendas and presentation videos delivered by commissioners to the commission. I will be adding the agendas to the folder shortly.

Here is the link to that shared folder if you would please include it in the agenda, in addition to the .pdf in case the hotlink in the .pdf does not transfer for whatever reason, it currently seems to be working but would be best to have in an additional location in the agenda:

Thank you!
