Concurrent Processing

18.70.030(B) Concurrent processing. Multiple applications for the same project shall be processed concurrently, and shall be reviewed, and approved or disapproved by the highest review authority designated by this Development Code for any of the applications (e.g., a project for which applications for Zoning Map amendment and a Use Permit are filed shall have both applications decided by the Council, instead of the Commission acting upon the Use Permit as otherwise provided by Table 7-1).
