## New eComment for City Council - Via Video Conference

Jacob Patterson submitted a new eComment.

Meeting: City Council - Via Video Conference

Item: 5A. 20-924 Approve Scope of Work for an Economic Development Feasibility Study Focused on the Mill Site

eComment: The scope of work is fine but this item seems premature. An economic feasibility study should be one of the last items completed in an LCP update because it depends on the results of other components of the LCP, including the land use map, which hasn't been reviewed by the whole Planning Commission or City Council in a public forum, but also the land use regulations, which haven't even been started yet.
