Hello Curtis,

Can you please read my email as I cannot make it to the Planning Commission meeting tonight.

Hello everyone,

My name is Marissa Colombi and I have lived in Fort Bragg for years.

I heard about an idea John Skinner had concerning the Dry Shed on the mill property and I thought it was a fantastic idea! He had mentioned that he would like to see the city obtain a piece of the GP property and fix up the last Dry Shed that is left and use it for the Arts and also as a fairground.

I think it would be great idea that would bring in tourism and also be a great place for a concert venue to attract more tourists and bring more jobs to our local community. The fairground could be used for many different events.

I am not sure if this is possible or how we could obtain the funding to buy the property but if there is any way that we could at least look into it and ask GP if they could give us more time to do so before they tear down the last Dry Shed. This would be greatly appreciated.

Thank you,
Marissa
