## Petition to the Fort Bragg City Council to Pass Attached Resolution

- Horrific attacks in Israel on October 7<sup>th</sup> left almost 1,200 people dead, mostly civilians, with over 250 hostages taken (*AlJazeera*).
- Israel's retaliatory assault has left at least 27,000 people dead in Gaza—over 1% of the region's 2.1 million people who reside in an area 6 miles wide by 25 miles long (Fort Bragg to Elk). Approximately 70% of these casualties have been women and children. Over 65,000 more people have been injured (*Gaza Health Ministry*). This represents a daily death rate higher than any other major conflict of the 21<sup>st</sup> century (*Oxfam*).
- Almost 1.9 million Gazans are displaced from their homes with nearly 1.4 million of them sheltering in overcrowded facilities, leading to dire increases in communicable disease. Up to 97% of people have inadequate food. This is largely due to Israel intensifying their standing blockade of Gaza into a "total siege," and Israel has been accused by Human Rights Watch of "using starvation of civilians as a method of warfare" (*ReliefWeb*).
- As of January 19<sup>th</sup>, two thirds of Gaza's hospitals have been rendered non-operational by Israeli attacks (*Reuters*).
- Our federal government provides billions in public funds to Israel's military, which means that our tax dollars are at work in the violence being done on the people of Gaza.
- Though the U.N. General Assembly passed a resolution calling for a ceasefire with 153 nations voting in support, the U.S. voted against along with 9 other nations (*AP*).
- At least 70 U.S. cities nationwide have passed resolutions condemning the violence. Nearby examples include Cotati, Oakland, and San Francisco; farther afield, Chicago just became the largest city in the nation to do so (*Reuters*).
- Additionally, hundreds of labor organizations including UAW, SEIU, United Electrical Workers, and the American Federation of Teachers have spoken out against the violence and called for a ceasefire.
- These resolutions create cumulative public pressure that will move up the chain of national representation so our voices can be heard at the federal level. We, the people of Fort Bragg, want to join this groundswell of voices for peace.

**Therefore, we, the undersigned, support the attached Ceasefire Resolution (reverse side).**

- Our federal government provides billions in public funds to Israel's military, which means that our tax dollars are at work in the violence being done on the people of Gaza.
- Though the U.N. General Assembly passed a resolution calling for a ceasefire with 153 nations voting in support, the U.S. voted against along with 9 other nations (*AP*).
- At least 70 U.S. cities nationwide have passed resolutions condemning the violence. Nearby examples include Cotati, Oakland, and San Francisco; farther afield, Chicago just became the largest city in the nation to do so (*Reuters*).
- Additionally, hundreds of labor organizations including UAW, SEIU, United Electrical Workers, and the American Federation of Teachers have spoken out against the violence and called for a ceasefire.
- These resolutions create cumulative public pressure that will move up the chain of national representation so our voices can be heard at the federal level. We, the people of Fort Bragg, want to join this groundswell of voices for peace.

**Therefore, we, the undersigned, support the attached Ceasefire Resolution (reverse side).**

## Petition to the Fort Bragg City Council to Pass Attached Resolution

- Horrific attacks in Israel on October 7<sup>th</sup> left almost 1,200 people dead, mostly civilians, with over 250 hostages taken (*AlJazeera*).
- Israel's retaliatory assault has left at least 27,000 people dead in Gaza—over 1% of the region's 2.1 million people who reside in an area 6 miles wide by 25 miles long (Fort Bragg to Elk). Approximately 70% of these casualties have been women and children. Over 65,000 more people have been injured (*Gaza Health Ministry*). This represents a daily death rate higher than any other major conflict of the 21<sup>st</sup> century (*Oxfam*).
- Almost 1.9 million Gazans are displaced from their homes with nearly 1.4 million of them sheltering in overcrowded facilities, leading to dire increases in communicable disease. Up to 97% of people have inadequate food. This is largely due to Israel intensifying their standing blockade of Gaza into a "total siege," and Israel has been accused by Human Rights Watch of "using starvation of civilians as a method of warfare" (*ReliefWeb*).
- As of January 19<sup>th</sup>, two thirds of Gaza's hospitals have been rendered non-operational by Israeli attacks (*Reuters*).
- Our federal government provides billions in public funds to Israel's military, which means that our tax dollars are at work in the violence being done on the people of Gaza.
- Though the U.N. General Assembly passed a resolution calling for a ceasefire with 153 nations voting in support, the U.S. voted against along with 9 other nations (*AP*).

## Petition to the Fort Bragg City Council to Pass Attached Resolution

- Horrific attacks in Israel on October 7<sup>th</sup> left almost 1,200 people dead, mostly civilians, with over 250 hostages taken (*AlJazeera*).
- Israel's retaliatory assault has left at least 27,000 people dead in Gaza—over 1% of the region's 2.1 million people who reside in an area 6 miles wide by 25 miles long (Fort Bragg to Elk). Approximately 70% of these casualties have been women and children. Over 65,000 more people have been injured (*Gaza Health Ministry*). This represents a daily death rate higher than any other major conflict of the 21<sup>st</sup> century (*Oxfam*).
- Almost 1.9 million Gazans are displaced from their homes with nearly 1.4 million of them sheltering in overcrowded facilities, leading to dire increases in communicable disease. Up to 97% of people have inadequate food. This is largely due to Israel intensifying their standing blockade of Gaza into a "total siege," and Israel has been accused by Human Rights Watch of "using starvation of civilians as a method of warfare" (*ReliefWeb*).
- As of January 19<sup>th</sup>, two thirds of Gaza's hospitals have been rendered non-operational by Israeli attacks (*Reuters*).
- Our federal government provides billions in public funds to Israel's military, which means that our tax dollars are at work in the violence being done on the people of Gaza.
- Though the U.N. General Assembly passed a resolution calling for a ceasefire with 153 nations voting in support, the U.S. voted against along with 9 other nations (*AP*).

## Petition to the Fort Bragg City Council to Pass Attached Resolution

- Horrific attacks in Israel on October 7<sup>th</sup> left almost 1,200 people dead, mostly civilians, with over 250 hostages taken (*AlJazeera*).
- Israel's retaliatory assault has left at least 27,000 people dead in Gaza—over 1% of the region's 2.1 million people who reside in an area 6 miles wide by 25 miles long (Fort Bragg to Elk). Approximately 70% of these casualties have been women and children. Over 65,000 more people have been injured (*Gaza Health Ministry*). This represents a daily death rate higher than any other major conflict of the 21<sup>st</sup> century (*Oxfam*).
- Almost 1.9 million Gazans are displaced from their homes with nearly 1.4 million of them sheltering in overcrowded facilities, leading to dire increases in communicable disease. Up to 97% of people have inadequate food. This is largely due to Israel intensifying their standing blockade of Gaza into a "total siege," and Israel has been accused by Human Rights Watch of "using starvation of civilians as a method of warfare" (*ReliefWeb*).
- As of January 19<sup>th</sup>, two thirds of Gaza's hospitals have been rendered non-operational by Israeli attacks (*Reuters*).
- Our federal government provides billions in public funds to Israel's military, which means that our tax dollars are at work in the violence being done on the people of Gaza.
- Though the U.N. General Assembly passed a resolution calling for a ceasefire with 153 nations voting in support, the U.S. voted against along with 9 other nations (*AP*).
- At least 70 U.S. cities nationwide have passed resolutions condemning the violence. Nearby examples include Cotati, Oakland, and San Francisco; farther afield, Chicago just became the largest city in the nation to do so (*Reuters*).
- Additionally, hundreds of labor organizations including UAW, SEIU, United Electrical Workers, and the American Federation of Teachers have spoken out against the violence and called for a ceasefire.
- These resolutions create cumulative public pressure that will move up the chain of national representation so our voices can be heard at the federal level. We, the people of Fort Bragg, want to join this groundswell of voices for peace.

**Therefore, we, the undersigned, support the attached Ceasefire Resolution (reverse side).**

## Petition to the Fort Bragg City Council to Pass Attached Resolution

- Horrific attacks in Israel on October 7<sup>th</sup> left almost 1,200 people dead, mostly civilians, with over 250 hostages taken (*AlJazeera*).
- Israel's retaliatory assault has left at least 27,000 people dead in Gaza—over 1% of the region's 2.1 million people who reside in an area 6 miles wide by 25 miles long (Fort Bragg to Elk). Approximately 70% of these casualties have been women and children. Over 65,000 more people have been injured (*Gaza Health Ministry*). This represents a daily death rate higher than any other major conflict of the 21<sup>st</sup> century (*Oxfam*).
- Almost 1.9 million Gazans are displaced from their homes with nearly 1.4 million of them sheltering in overcrowded facilities, leading to dire increases in communicable disease. Up to 97% of people have inadequate food. This is largely due to Israel intensifying their standing blockade of Gaza into a "total siege," and Israel has been accused by Human Rights Watch of "using starvation of civilians as a method of warfare" (*ReliefWeb*).
- As of January 19<sup>th</sup>, two thirds of Gaza's hospitals have been rendered non-operational by Israeli attacks (*Reuters*).
- Our federal government provides billions in public funds to Israel's military, which means that our tax dollars are at work in the violence being done on the people of Gaza.
- Though the U.N. General Assembly passed a resolution calling for a ceasefire with 153 nations voting in support, the U.S. voted against along with 9 other nations (*AP*).
- At least 70 U.S. cities nationwide have passed resolutions condemning the violence. Nearby examples include Cotati, Oakland, and San Francisco; farther afield, Chicago just became the largest city in the nation to do so (*Reuters*).
- Additionally, hundreds of labor organizations including UAW, SEIU, United Electrical Workers, and the American Federation of Teachers have spoken out against the violence and called for a ceasefire.
- These resolutions create cumulative public pressure that will move up the chain of national representation so our voices can be heard at the federal level. We, the people of Fort Bragg, want to join this groundswell of voices for peace.

**Therefore, we, the undersigned, support the attached Ceasefire Resolution (reverse side).**
