Please support the Initiative(s) before you regarding the specific proposed Economic Development aimed at the Central Business District and Downtown in general. Most of the merchants, residents, and property owners in our City Center embrace this long awaited action on your part. Your formal commitments to Way Finding Signage, Facade Grants, Low Interest Business Loans, Mural Installations, and Capital Improvements where needed - will further inspire community pride in Fort Bragg as both a home town and unique destination.

Please also give job performance recognition to City Manager Isaac Whippy, whose tireless work on our economic development makes it easy for the Council to inspire new interest in all of Fort Bragg.

Appreciatively,

Bill Mann
