Multi-device homes, 4K streaming, remote work. Power users, online gaming, smart homes

Creators, professionals, heavy upload/download households. Advance tech use. Constant, highvolume data flow

Maximum performance for businesses & futureready homes

INSTALLATION COSTS

Standard Installation includes up to 150 feet of fiber drop from the City right-of-way to the customer's premises, along with basic restoration of any areas disturbed during the installation process.

If the required fiber drop exceeds 150 feet or involves complex conditions—such as boring under driveways, sidewalks, or other hardscapes—additional fees may apply based on hourly labor rates and material costs. A cost estimate will be provided in advance for any non-standard installations.
