ZONING: RS, (suburban Residential), RL (Low Density Residential). RM (Medium

Density Residential), RH (High Density Residential); RVH (Very High Density Residential), CN (Neighborhood Commercial), CG (General

Commercial).

ENVIRONMENTAL DETERMINATION:

A CEQA document will be prepared for this project.

APPROVALS:

This project constitutes a change to the City of Fort Bragg Local Coastal Program and the City's Inland Land Use and Development Code.

- The Planning Commission may adopt a Resolution of the Fort Bragg Planning Commission Recommending that the City Council Amend Chapter 18.42.175 "Tiny Homes", of Division 18 of the Fort Bragg Municipal Code, to Modify Regulations and Standards for Tiny Homes.
- The Planning Commission may Adopt a Resolution of the Fort Bragg Planning Commission Recommending that the City Council approve an LCP Amendment to the Coastal Commission to Amend Chapter 17.42.175 "Tiny Homes", of Division 17 of the Fort Bragg Municipal Code, to Modify Regulations and Standards for Tiny Homes.

PROJECT BACKGROUND

In 2019, the City of Fort Bragg amended the Housing Element of the General Plan for conformance with State housing law. The 2019 Housing Element includes the following non-mandatory program regarding Tiny Homes.

Program H-1.3.5 Allow Tiny Homes as Second Units. Consider revising the zoning ordinance so that people can park mobile residencies (residences built under the vehicle code) as a second unit, so long as the residence looks like a house (e.g., external siding that is compatible with the residential neighborhood, skirted if the wheels would otherwise be visible from the public right of way, etc.).

On April 22, 2022, the City Council adopted Ordinance 980 establishing a Tiny Home Ordinance, but the ordinance was subsequently found to have some conflicts with State law, specifically: by allowing up to three tiny homes on a lot, it conflicts with state regulations regrading mobile home parks as any parcel with two or more mobile homes is considered a mobile home park by the State. Additionally, the proposed ordinance revision would regulate both Tiny Homes and Park Model RVs as equivalent housing types subject to the same requirements, which have been updated as well.

Park Model RV

The Community Development Committee heard this item on May 17, 2023. The CDC did not provide recommendations regarding the proposed revised tiny home ordinance.

PROJECT DESCRIPTION

This section summarizes various changes to the CLUDC and the ILUDC for the Planning Commission and City Council's consideration. This amendment is voluntary as it is not required by the State, therefore the City Council has total decision-making authority as to if or how to amend the zoning codes to allow Tiny Homes and Park Model RVs on residential zoned parcels and possibly commercial zoned parcels.

Policy Considerations for Tiny Homes

Please review the attached ordinances and consider providing a recommendation to City Council on the following key policy points and changes to the existing ordinance.

B. Definitions. Refines the Tiny Home definitions to clarify that: 1) Tiny Homes must comply with relevant vehicle code standards and 2) Park Model RV's are also included in the Tiny Home regulations. C1. Limitations on Location. Clarify if a Tiny Home should be an accessory use to a primary residence in any zoning ordinance. The exiting ordinance would appear to allow Tiny Homes on parcels with primary residences in both residential and commercial zoning districts. As written, the 2022 ordinance would allow tiny homes in a commercial zoning district with a pre-existing residential home. The Planning Commission should clarify if: 1. The City should allow a Tiny Home as an accessory residential use in commercial zoning districts or only in low density zoning districts. Please review the use tables and provide a recommendation on these questions. Please provide a recommendation if Tiny Homes should comply with existing setback requirements (5 at the side and 10 at the back property line) or with the more generous setback requirements of ADUs and Urban Unit Development (4 feet). Please provide a recommendation if you agree that Tiny Homes should be placed to the side or behind a Primary Residential Unit, but not in front of one. C2d Number of Unit Allowed To the existing ordinance allows up to three Tiny Homes per residential parcel. However, the State considers any parcel with two or more mobile homes or tiny homes as a mobile home park, and as such they are required to conform with State mobile home park regulations. Therefore, if two or more Tiny Homes are allowed on a residential lot it would have to comply with the City's requirements in the proposed Tiny Home Community ordinance. • MJC recommends that the Tiny Home ordinance be modified to allow only one Tiny Home on a parcel with a primary residential Unit. • MJC further recommends that a Tiny Home not be allowed on a parcel that already has a detached ADU. RECOMMENDED ACTION

- Adopt a Resolution of the Fort Bragg Planning Commission Recommending that the City Council Amend Chapter 18.42.175 "Tiny Homes", of Division 18 of the Fort Bragg Municipal Code, to Modify Regulations and Standards for Tiny Homes.
- 2. Adopt a Resolution of the Fort Bragg Planning Commission Recommending that the City Council approve an LCP Amendment to the Coastal Commission to Amend Chapter 17.42.175 "Tiny Homes", of Division 17 of the Fort Bragg Municipal Code, to Modify Regulations and Standards for Tiny Homes.

ALTERNATIVE ACTION(S)

Provide alternative direction to staff and the consultant.

ENVIRONMENTAL ANALYSIS

- **ILUDC Amendment.** The proposed project is subject to CEQA and an MND has been prepared and is attached.
- CLUDC Amendment. The proposed amendment to the Coastal Land Use and Development Code is part of the City's Local Coastal Program and will be submitted to the California Coastal Commission for certification. Therefore, the proposed project is statutorily exempt from further environmental review under CEQA Guidelines 15265 Adoption of Coastal Plans and Programs.

Fiscal Impact

No impact. The proposed ordinance does not propose to eliminate capacity fees for tiny homes.

Greenhouse Gas Emissions Impact

Greenhouse gas emissions would be reduced as residential density is added to the City as it reduces the miles traveled for residents to access services, jobs and community activities.

Consistency

The consistency of the proposed ordinance amendments with the Coastal General Plan and Inland General Plan has been analyzed in Attachments 3 of this report.

Implementation/Timeframes

This effort includes two amendments, which are processed differently as the CLUDC amendment will be a Local Coastal Program application to the Coastal Commission which will be approved by the Coastal Commission, while the ILUDC amendment will be approved as an ordinance by

the City Council. While the two amendments are similar, they are not identical, as Tiny Home Communities in the Coastal Zone would be subject to the Coastal Development Permit process.

- October- Prepared and circulated CEQA document.
- March Recommendation from Planning Commission.
- April Fist reading of the ordinance by City Council.
- May Second reading of the ordinance and adoption by City Council.
- June Ordinance goes into effect.
