Subject: Dog Park

I support a dog park near the new coastal trail!

Subject: Coastal Trail off leash dog park

I am unable to attend tonight's meeting which is considering the off leash dog park - but I wish to relay my support for the dog park. I have been an active participant in all the different dog parks on the coast and truly believe that the parks have made a difference in protecting our unique environment from the negative effects of off-leash dogs on our trails and beaches. I believe a dog park on the Coastal Trail will offer an appropriate and readily available place for the dogs to run and play, countering the temptation of dog owners to walk the trail with off leash dogs. However, I do hope dogs on leash will be allowed on the trail. Thanks for considering this popular community activity as an enhancement to the Coastal Trail.

Dog parks are good for communities. I hope the proposed new dog park will be approved

Thank you
