

STATE OF CALIFORNIA

TOBACCO EDUCATION AND RESEARCH OVERSIGHT COMMITTEE

MEMBERS:

MICHAEL ONG, M.D., Ph.D.
CHAIRPERSON
Associate Professor in Residence
Division of General Internal Medicine and
Health Services Research
Department of Medicine
University of California, Los Angeles

ALAN HENDERSON, Dr.P.H., C.H.E.S.
VICE CHAIRPERSON
Professor Emeritus
California State University, Long Beach

DENISE ADAMS-SIMMS, M.P.H.
Executive Director
San Diego Black Health Associates

LOURDES BAEZCONDE-GARBANATI, Ph.D.,
M.P.H., M.A.
Associate Professor in Preventive Medicine and Sociology
Institute for Health Promotion and Disease Prevention Research
Keck School of Medicine
University of Southern California

VICKI BAUMAN
Prevention Director
Stanislaus County Office of Education

WENDEL BRUNNER, Ph.D., M.D., M.P.H.
Director of Public Health
Contra Costa Health Services

PATRICIA ETEM, M.P.H.
Executive Consultant
CIVIC Communications

LAWRENCE W. GREEN, Dr.P.H., ScD. (Hon.)
Professor
Department of Epidemiology and Biostatistics
School of Medicine and Comprehensive Cancer Center
University of California San Francisco

PAMELA LING, M.D., M.P.H.
Associate Professor
Department of Medicine
University of California, San Francisco

MYRON DEAN QUON, Esq.
Executive Director
National Asian Pacific American Families
Against Substance Abuse

DOROTHY RICE, Sc.D. (Hon.)
Professor Emeritus
Institute for Health and Aging
School of Nursing
University of California, San Francisco

SHU-HONG ZHU, PH.D., M.S.
Professor
Department of Family and Preventive Medicine
University of California, San Diego

February 26, 2014

Re: TEROC E-Cigarette Position

To Whom It May Concern:

The Tobacco Education and Research Oversight Committee (TEROC) is a legislatively mandated oversight committee (California Health and Safety Code Sections 104365-104370) that monitors the use of Proposition 99 tobacco tax revenues for tobacco control, prevention education, and tobacco-related research in California. In performing this mandate, the Committee provides advice to the California Department of Public Health, the University of California, and the California Department of Education regarding the administration of the Proposition 99-funded programs. The Committee is also responsible for producing a state master plan for tobacco control and tobacco-related research, and making recommendations to the State Legislature for improving tobacco control and tobacco-related research efforts in California.

TEROC supports the regulation of electronic cigarette (e-cigarette) by prohibiting the use of e-cigarettes wherever tobacco products cannot presently be used. TEROC's official position on e-cigarettes was adopted at the Committee's May 22, 2013 meeting, which states:

“TEROC opposes the use of e-cigarettes in all areas where other tobacco products are banned.”

Local ordinances have been enacted by numerous California cities and counties by prohibiting the use of e-cigarettes in some outdoor areas, some indoor areas, or both, by including e-cigarettes in their existing smoke-free laws.

Smoke-free policies protect nonsmokers from exposure to toxins and encourage smoking cessation. Introducing e-cigarettes into clean air environments reinforces the act of smoking as socially acceptable, and makes enforcement of existing laws that protect the public from secondhand smoke difficult due to the similarities with cigarettes. Early data has shown that e-cigarette emissions can contain carcinogens and toxic chemicals, which may result in additional harm to the public.

According to the Centers for Disease Control and Prevention (CDC), the percentage of U.S. middle and high school students who used e-cigarettes more than doubled from 2011 to 2012, from 4.7 percent to 10.0 percent. In 2012, more than 1.78 million middle and high school students nationwide had tried e-cigarettes.

February 26, 2014

The CDC study also found that 76.3 percent of middle and high school students who used e-cigarettes in the last 30 days had also smoked cigarettes. With emerging tobacco products like e-cigarettes on the rise, this vulnerable population needs protection from exposure to these products.

For these reasons, TEROCC supports the regulation of e-cigarette use anywhere tobacco use is currently prohibited.

If you have any questions regarding this subject, please do not hesitate to contact me at MOng@Mednet.ucla.edu.

Sincerely,

Sincerely,
