Dear Planning Commission and Marie Jones,

Attached are letters of complaint. The signers of these letters do NOT want their names to be made public. Please keep the identities of the signers confidential to protect them from harassment, loss of business and threats.

Thank you

)

Date: 7/24/17

Dear Fort Bragg Planning Commission:

Please revoke the non-conforming use permit for the Emergency Shelter known as the Hospitality House at 237 N. McPherson Street. The reasons listed in the Public Notice are more than enough to prove the violations have occurred with little or no concern by those in charge.

It is time for the City to require the Emergency Shelter to find a new location that:

1. can accommodate the number of beds they need and the amount of people they feed
2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

It is time for the community to stop enabling this dysfunctional operation, revoke the permit and support the changes necessary to provide appropriate and adequate services to the people who need them.

The surrounding property owners, residents and businesses have suffered long enough (30 years). The truth is that businesses are closing, property values have plummeted, and this neighborhood is not safe for children and elders because of the violations cited.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

The people who live and work in Fort Bragg are witness to and know that these violations have occurred. It is obvious that this land use is no longer consistent with the goals and policies of the Fort Bragg General Plan and the development standards of the Fort Bragg Municipal Code. I ask that you do what you have promised to do and enforce the codes.

Please ~~revoke this permit and give this neighborhood back to the people~~ who live and work here.

Dear Fort Bragg Planning Commission:

Please revoke the non-conforming use permit for the Emergency Shelter known as the Hospitality House at 237 N. McPherson Street. The reasons listed in the Public Notice are more than enough to prove the violations have occurred with little or no concern by those in charge.

It is time for the City to require the Emergency Shelter to find a new location that:

1. can accommodate the number of beds they need and the amount of people they feed
2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

It is time for the community to stop enabling this dysfunctional operation, revoke the permit and support the changes necessary to provide appropriate and adequate services to the people who need them.

The surrounding property owners, residents and businesses have suffered long enough (30 years). The truth is that businesses are closing, property values have plummeted, and this neighborhood is not safe for children and elders because of the violations cited.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

The people who live and work in Fort Bragg are witness to and know that these violations have occurred. It is obvious that this land use is no longer consistent with the goals and policies of the Fort Bragg General Plan and the development standards of the Fort Bragg Municipal Code. I ask that you do what you have promised to do and enforce the codes.

Please revoke this permit and give this neighborhood back to the people who live and work here.

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

It is time for the community to stop enabling this dysfunctional operation, revoke the permit and support the changes necessary to provide appropriate and adequate services to the people who need them.

The surrounding property owners, residents and businesses have suffered long enough (30 years). The truth is that businesses are closing, property values have plummeted, and this neighborhood is not safe for children and elders because of the violations cited.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

The people who live and work in Fort Bragg are witness to and know that these violations have occurred. It is obvious that this land use is no longer consistent with the goals and policies of the Fort Bragg General Plan and the development standards of the Fort Bragg Municipal Code. I ask that you do what you have promised to do and enforce the codes.

Please revoke this permit and give this neighborhood back to the people who live and work here.

Dear Fort Bragg Planning Commission:

Please revoke the non-conforming use permit for the Emergency Shelter known as the Hospitality House at 237 N. McPherson Street. The reasons listed in the Public Notice are more than enough to prove the violations have occurred with little or no concern by those in charge.

It is time for the City to require the Emergency Shelter to find a new location that:

1. can accommodate the number of beds they need and the amount of people they feed
2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

Dear Fort Bragg Planning Commission:

Please revoke the non-conforming use permit for the Emergency Shelter known as the Hospitality House at 237 N. McPherson Street. The reasons listed in the Public Notice are more than enough to prove the violations have occurred with little or no concern by those in charge.

It is time for the City to require the Emergency Shelter to find a new location that:

1. can accommodate the number of beds they need and the amount of people they feed
2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

It is time for the community to stop enabling this dysfunctional operation, revoke the permit and support the changes necessary to provide appropriate and adequate services to the people who need them.

The surrounding property owners, residents and businesses have suffered long enough (30 years). The truth is that businesses are closing, property values have plummeted, and this neighborhood is not safe for children and elders because of the violations cited.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

The people who live and work in Fort Bragg are witness to and know that these violations have occurred. It is obvious that this land use is no longer consistent with the goals and policies of the Fort Bragg General Plan and the development standards of the Fort Bragg Municipal Code. I ask that you do what you have promised to do and enforce the codes.

Please ~~revoke this permit and give this neighborhood back to the people~~ who live and work here.

Signed

2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

It is time for the community to stop enabling this dysfunctional operation, revoke the permit and support the changes necessary to provide appropriate and adequate services to the people who need them.

The surrounding property owners, residents and businesses have suffered long enough (30 years). The truth is that businesses are closing, property values have plummeted, and this neighborhood is not safe for children and elders because of the violations cited.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

The people who live and work in Fort Bragg are witness to and know that these violations have occurred. It is obvious that this land use is no longer consistent with the goals and policies of the Fort Bragg General Plan and the development standards of the Fort Bragg Municipal Code. I ask that you do what you have promised to do and enforce the codes.

Please ~~revoke this permit and give this neighborhood back to the people who live and work here,~~

Dear Fort Bragg Planning Commission:

Please revoke the non-conforming use permit for the Emergency Shelter known as the Hospitality House at 237 N. McPherson Street. The reasons listed in the Public Notice are more than enough to prove the violations have occurred with little or no concern by those in charge.

It is time for the City to require the Emergency Shelter to find a new location that:

1. can accommodate the number of beds they need and the amount of people they feed
2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

The people who live and work in Fort Bragg are witness to and know that these violations have occurred. It is obvious that this land use is no longer consistent with the goals and policies of the Fort Bragg General Plan and the development standards of the Fort Bragg Municipal Code. I ask that you do what you have promised to do and enforce the codes.

Please revoke this permit and give this neighborhood back to the people who live and work here.

Dear Fort Bragg Planning Commission:

Please revoke the non-conforming use permit for the Emergency Shelter known as the Hospitality House at 237 N. McPherson Street. The reasons listed in the Public Notice are more than enough to prove the violations have occurred with little or no concern by those in charge.

It is time for the City to require the Emergency Shelter to find a new location that:

1. can accommodate the number of beds they need and the amount of people they feed
2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

It is time for the community to stop enabling this dysfunctional operation, revoke the permit and support the changes necessary to provide appropriate and adequate services to the people who need them.

The surrounding property owners, residents and businesses have suffered long enough (30 years). The truth is that businesses are closing, property values have plummeted, and this neighborhood is not safe for children and elders because of the violations cited.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

Dear Fort Bragg Planning Commission:

Please revoke the non-conforming use permit for the Emergency Shelter known as the Hospitality House at 237 N. McPherson Street. The reasons listed in the Public Notice are more than enough to prove the violations have occurred with little or no concern by those in charge.

It is time for the City to require the Emergency Shelter to find a new location that:

1. can accommodate the number of beds they need and the amount of people they feed
2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

It is time for the community to stop enabling this dysfunctional operation, revoke the permit and support the changes necessary to provide appropriate and adequate services to the people who need them.

The surrounding property owners, residents and businesses have suffered long enough (30 years). The truth is that businesses are closing, property values have plummeted, and this neighborhood is not safe for children and elders because of the violations cited.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

The people who live and work in Fort Bragg are witness to and know that these violations have occurred. It is obvious that this land use is no longer consistent with the goals and policies of the Fort Bragg General Plan and the development standards of the Fort Bragg Municipal Code. I ask that you do what you have promised to do and enforce the codes.

Please revoke this permit and give this neighborhood back to the people who live and work here.

2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.

It is time for the community to stop enabling this dysfunctional operation, revoke the permit and support the changes necessary to provide appropriate and adequate services to the people who need them.

The surrounding property owners, residents and businesses have suffered long enough (30 years). The truth is that businesses are closing, property values have plummeted, and this neighborhood is not safe for children and elders because of the violations cited.

Do you want to purchase property on this block, stroll down this street for an evening walk or direct tourists there?

The people who live and work in Fort Bragg are witness to and know that these violations have occurred. It is obvious that this land use is no longer consistent with the goals and policies of the Fort Bragg General Plan and the development standards of the Fort Bragg Municipal Code. I ask that you do what you have promised to do and enforce the codes.

Please revoke this permit and give this neighborhood back to the people who live and work here.

Dear Fort Bragg Planning Commission:

Please revoke the non-conforming use permit for the Emergency Shelter known as the Hospitality House at 237 N. McPherson Street. The reasons listed in the Public Notice are more than enough to prove the violations have occurred with little or no concern by those in charge.

It is time for the City to require the Emergency Shelter to find a new location that:

1. can accommodate the number of beds they need and the amount of people they feed
2. has qualified staff to manage the services
3. has adequate private professional security

The Hospitality House's operation does not comply with Fort Bragg's Municipal codes. In addition to these violations they are not helping the people they promise to serve get permanent housing and rehabilitation.
