

Date: 7-24-2017

To the Fort Bragg Planning Commission,

I am in favor of modification of Use Permit to address Use Permit violations and nuisance conditions resulting from the operation of the Hospitality House.

I feel all the reasons listed in the Public Notice are more than enough to prove violations have occurred at 237 N. McPherson St. with little or no concern by those in charge. Therefore I would like to see modifications to include:

1. 24 beds and no more
2. Meals for the occupants of those 24 beds and no more
3. Qualified staff to manage the House
4. Professional Security Services to be paid by the Organization.

To Marie Jones:

When business people or community members complain to an organization who are obviously creating a nuisance around downtown businesses and in nearby residential areas and their complaints go unanswered it is time for our City to step up and deal with the organization creating those issues.

In my opinion, the Hospitality Center/Hospitality House have shown total disregard for the downtown area and nearby residential neighborhoods. They have also shown total disregard for a use permit that was supposed to keep issues such as this from happening.

It is very disheartening to walk the two blocks to the store and along the way witness littering, human and dog feces, fighting, drinking, smoking, loitering, panhandling and yelling at and around the Hospitality House and in the nearby downtown area.

I feel it is time to do something to stop the mess created year round by this organization and their lack of answering to those who have complained and offered solutions.

It is sad when you see the number of calls to Law Enforcement directed to 237 N. McPherson St. and know that most who have problems around their business or home are not even reporting them any longer. They have given up.

**If run properly the HH could be a good thing again.**

I am asking you to amend the permit to:

1. Allow only 24 beds.
2. Feed only those who are using the 24 beds.
3. Hire a professional to oversee the place.
4. Hire a private security service at their own expense.

Sean J DICK FTBRAGG.
