Text message from Judy Valadao to Mayor Peters 8/13/2018:

You can read this at the meeting,

Regarding the Danco project.

The 15 PSH units would include supportive services that are voluntary, can be accessed 24 hours a day/7 days a week, and are not a condition of ongoing tenancy.

Am I wrong in saying that substance abusers could move in and not accept the services offered but instead continue with their lifestyle and do so having a house furnished for them?

This means that seniors who are on a waiting list of up to 6 years will continue to be on the waiting list.

I would like to see the 15 units of Permanent Supportive Housing for homeless seniors and homeless disabled people changed to

PSH for homeless/disabled seniors, homeless/disabled vets.

It seems to me that every time housing issues are brought up it turns into an issue that takes the focus away from local people/seniors and vets in need and instead focuses on those who for the most part come here to get what you are offering at the expense of seniors on a 6 year waiting list.

Subject: Danco Housing

Dear Council Members

On Monday August 13th's agenda housing developer Danco will be approaching the City for support for their project on South St. Apparently they have been having difficulty with financing their project building 45 low income housing units. It is imperative that the city assist them in any way necessary. We need housing. We desperately need housing. Please Support Danco. The cottages they built already are popular and stylish and we need more of that kind of housing here.

Thank you

Dear Fort Bragg City Council Members,

On Monday, August 13th's agenda housing developer Danco will be approaching the City for support for their project on South St. It has come to my attention that they have been having difficulty with financing their project building 45 low income housing units. It is essential that the city assist them in any way possible. We need housing. We desperately need more affordable, accessible housing. Please Support Danco. The cottages they've built already are popular and comfortable and we need more of that kind of housing here.

Thank you!
