

CITY OF FORT BRAGG

REQUEST FOR PROPOSALS FOR DESIGN OF THE REPLACEMENT RAW WATER PIPELINE FROM THE WATER TREATMENT PLANT TO SUMMERS LANE RESERVOIR AND FROM HIGHWAY 20 TO WATERFALL GULCH

The City of Fort Bragg is seeking proposals from qualified consultants interested in contracting with the City to design a replacement raw water transmission line and to prepare construction drawings and contract documents supporting the construction of approximately 15,000 LF of raw water transmission line and appurtenances from the City's Water Treatment Facility to Summers Lane Reservoir and from Highway 20 to Waterfall Gulch.

This pipeline is critical to the secure supply of raw water from the City's best quality sources, and the existing pipeline is nearing the end of its service life. Much of this transmission line has been in place for decades, and consists of a mixture of PVC, asbestos concrete, ductile iron and steel pipe. A portion of the existing pipeline is above ground and is supported by a trestle. Flow in the pipeline is gravity-fed throughout its length from two sources to the City water treatment plant at the east end of Cedar Street. The uppermost source is at an elevation of nearly 400 feet. The alignment crosses two waterways, the Hare Creek crossing and the Noyo River crossing. The Noyo River crossing lies just above sea level.

The project design shall include Phases II-V of the raw water line replacement (Figure 1). The section of water line from the north side of Highway 20 to the Summers Lane Reservoir was constructed as Phase I in 2013 and will not be a part of this project. The Hare Creek and Noyo River crossings and the section from Waterfall Gulch intake to Road 450 are relatively new and will not need to be replaced. Construction will be phased as shown below:

Phase I - Complete

Phase II - from the Water Treatment Plant to the north side of the Noyo River crossing

Phase III - from the south side of the Noyo River crossing to Summers Lane Reservoir

Phase IV - from the north side of Highway 20 (replacing the current Highway 20 crossing) to the north side of the Hare Creek crossing

Phase V - from the south side of the Hare Creek crossing to the new line along Waterfall Gulch which ends at Road 450

The existing pipeline and new replacements are located in a geologically active area, characterized by steep slopes, shallow ground water, heavy forestation, and a challenging construction environment with areas of sensitive riparian habitat and difficult access. Phases II and III are partially located within the Coastal Zone (Figure 2). The City is beginning the Environmental and Coastal Zone permitting process and will provide results of biologic and archeologic studies to support the optimal pipe location upon study completion. The biological study will inventory and locate relevant trees; some additional work may be needed for the existing conditions survey. The City will be securing a Timber Harvest Plan for the project. The proposals should anticipate providing support of the City throughout the Coastal Development and any other environmental permitting or other related processes. There are more specifically described tasks which are listed under Additional Tasks below, and are optional to the RFP.

2. Complete a field investigation and assessment of existing conditions and constraints of the pipeline and appurtenances.
3. Prepare an analysis of project practicability, including a hydraulic analysis of the proposed replacement pipeline using material and diameter alternatives to verify capacity and operations needs and requirements and provide results in a report that includes operations and maintenance costs over the service life.

The design shall assume that construction will be required to be Buy American compliant as well as other Federal contracting requirements.
7. All construction documents shall be fully compliant with all of the requirements of any funding source. Consultant is responsible for thoroughly reviewing and understanding the design and construction requirements imposed by funding sources, and to ensure they are fully incorporated into the construction documents. Consultant shall work with City staff to ensure that the contract documents reflect all the funding source requirements.

10. Coordination of and attendance at 4-5 project meetings, including preparation of agendas and meeting notes that incorporate all agency comments.

Additional Tasks:

1. Provide environmental consulting services to assist in permit acquisition. Phased construction will likely occur over an extended period of time. The environmental issues may need to be revisited and updated or modified during the design and/or construction process.
 - Describe how your firm or sub-consultant can assist in environmental permit acquisition. What would be the anticipated timeline for the process?

2. Preparation of Timber Harvest Plan
 - Construction will require removal of many trees which will need a Timber Harvest Plan (THP). It is anticipated that each phase will require its own THP. The documents should be prepared such that adjustments can be readily implemented. Describe how your firm or sub-consultant can accomplish this.
3. Provide potential funding sources and assistance with funding acquisition.
 - Describe how your firm or sub-consultant can assist with funding acquisition.

Primary Project Deliverables (in paper and digital format):

6. Preliminary design, cost estimation, mapping and a detailed project description to support environmental review and permitting analysis and for seeking project funding from a variety of State and Federal sources.
7. Improvement Plans, specifications, engineer's opinion of costs, and any other relevant documents needed to construct the project. These shall be submitted to the City for review at 60% and 100% completion. The documents shall be prepared for phased construction.
8. Completed construction documents that comply with requirements imposed by funding source(s) that are designed and organized in such a way as to make updating them convenient and yet maintain internal consistency.
9. Coordination of meetings and preparation of agendas and meeting notes for meetings attended. Meeting notes shall incorporate agency comments.

Furthermore, the requirements for coverage and limits shall be (1) the minimum coverage and limits specified in this Agreement; or (2) the broader coverage and maximum limits of coverage of any insurance policy or proceeds available to the named Insured; whichever is greater.

f. The limits of insurance required in this Agreement may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the benefit of City (if agreed to in a written contract or agreement) before the City's own insurance or self-insurance shall be called upon to protect it as a named insured.

g. Insurance coverage required pursuant to this Agreement must include or be endorsed to include the following:

(1) Any failure of Consultant to comply with reporting provisions of the policy shall not affect coverage provided to City and its officers, employees, agents, and volunteers.

k. All self-insured retentions (SIR) must be disclosed to City for approval and shall not reduce the limits of liability. Policies containing any self-insured retention (SIR) provision shall provide or be endorsed to provide that the SIR may be satisfied by either the named Insured or by the City. City reserves the right to obtain a full certified copy of

any Insurance policy and endorsements. Failure to exercise this right shall not constitute a waiver of right to exercise later.

I. To the extent this Agreement is a "construction contract" as defined by California Civil Code § 2783, as may be amended from time to time, Consultant shall maintain insurance as required by this contract to the fullest amount allowed by law and shall maintain insurance for a minimum of five years following completion of the Services. In the event Consultant fails to obtain or maintain completed operations coverage as required by this Agreement, the City at its sole discretion may purchase the coverage required and the cost will be paid by Consultant.

14. NON DISCRIMINATION

During the performance of this Agreement, Consultant will not discriminate against any employee of the Consultant or applicant for employment because of race, religion, creed, color, national origin, gender, sexual orientation, or age. Any modification or reuse of such documents by the City without Consultant's prior consultation will be at the City's sole risk. Except as may be otherwise required by law, Consultant will disclose no data, plans, specifications, reports or other documents pertaining to the Services without the prior written consent of City.

20. DISPUTES

a. Any dispute, other than an audit, concerning a question of fact arising under this Agreement that is not disposed of by agreement shall be decided by a

committee consisting of the City's Contract Manager and the City Manager, who may consider written or verbal information submitted by the Consultant.

b. Not later than thirty (30) days after completion of all work under the Agreement, the Consultant may request review by the City Council of unresolved claims or disputes, other than audit. The request for review will be submitted in writing.
