

Stay Clear of Additional Charges

Today's material processors have strict standards; they won't accept contaminated loads. Contaminants can result in an entire load of recyclables or organics being landfilled. This drives up collection and disposal costs for everyone. When you recycle right, you avoid contamination surcharges and help our community to be green.

**Keep your recycling containers clear of
contamination and ensure all container lids
are closed.**

See reverse side for more information.

KEEP LIDS CLOSED

Materials must fit inside a container with the lid shut for regular service.

Eliminating excess materials in containers helps:

- Minimize Service Delays
- Reduce Equipment Failure
- Decrease Litter
- Eliminate Safety Risks
- Prevent Animal Hazards
- Reduce Truck Fires

If you regularly have excess materials, we're here to help you put a lid on overages. Call Customer Service at 707-964-9172 to help you right-size your service.

AVOID CONTAMINATION CHARGES – RECYCLE RIGHT

Only place allowable materials in your recycling and green waste/organics containers.

Only materials free of contaminants are recyclable.

Recycle only empty hard plastic bottles/containers, glass jars/bottles, and clean paper and cardboard.

No plastic bags. Place recyclables directly into your container.

Keep food and liquids out of the recycling.

Collect only yard trimmings, food and food-soiled paper.

No plastic bags.

No plastic, glass, metal, treated wood, hazardous or pet waste.

Visit wm.com/fortbragg for recycling tips and more information.
