

LEGISLATIVE PLATFORM

CITY COUNCIL MEETING

APRIL 22, 2019

Purpose of Legislative Platform

- League of California Cities often asks its member cities to act quickly to support or oppose bills.
- These short deadlines often do not provide sufficient time for staff to prepare a letter or resolution and have City Council approve it at a regular or special City Council meeting.
- In response, many cities develop a legislative platform ahead of time that acts as a guide to local, state or federal matters, and allows the City to advocate on behalf of our community in a timely manner.
- Enables the Mayor and/or City Manager to submit advocacy letters within the parameters of the established legislative platform.
