However, this provision was enacted when assessed valuation was based upon 25% of market value. Effective with the 1981.82 fiscal vear, each parcel is now assessed at 100% of market value (as of the most trecent change in ownership for that parcel). GLOSSARY OF FINANCIAL TERMS

Accrual Basis - A basis of accounting in which revenues and expenditures are recorded at the time they occur as opposed to when cash is actually received or spent.

Adjusted Budget - The adopted budget plus any modifications (increases, decreases and transfers) approved by the City Council during the fiscal year.

Allocation of Funds - A legal authorization granted by the City Council to make expenditures of resources and to incur obligations for a specific purpose.

Appropriation - Setting aside funds for a specific purpose or program. An allocation of funds makes them available for expenditure.

Appropriation Without Regard To Fiscal Year– An appropriation for a specific amount that is available from year to year until fully expended. Example: capital projects and grants appropriated for the total amount of the project or grant often span more than one fiscal year eliminating the need to re-appropriate them each year.

Arbitrage -The difference between the interest paid on the tax-exempt securities and the interest earned by investing the security proceeds in higher-yielding taxable securities. IRS regulations govern arbitrage on the proceeds from issuance of municipal securities.

Assessed Valuation - The valuation set upon real estate and certain personal property by the County Assessor as a basis for levying property taxes.

Assessed Valuation (Secured) - That part of the assessment roll property the taxes on which are a lien on real property sufficient to secure payment of taxes.

Balloon Maturity - A later maturity within an issue of bonds which contains a disproportionately large percentage of the principal amount of the original issue.

Balanced Budget – A balanced budget in governmental funds requires operating revenues to fully cover operating expenditures. A balanced budget in the enterprise funds requires that there are enough revenues to pay operating expenses exclusive of depreciation and debt service.

Betterment - An addition made to, or changes made in, a fixed asset that will either increase the useful life of the asset or increase its efficiency.

Bond - A long-term promise to repay a specified amount (the face amount of the bond) on a particular date (the maturity date). The most common types of bonds are general obligation and revenue bonds. Bonds are primarily used to finance capital projects.
