CITY OF FORT BRAGG
CITY CLERK

Dear City Council Members,

Here are more than 4000 signatures supporting our petition to
**SAVE 400 ACRES OF FORT BRAGG HEADLANDS: CLEAN UP FIRST FOR A
HEALTHY MENDOCINO COAST**

The overwhelming response to this petition emphasizes our community's desire for a full and thorough cleanup of the former Georgia-Pacific mill site. This is backed up by the Fort Bragg City Council's resolution to this effect passed in 2017. This petition addresses issues of increasing community concern due to the fact that two parcels of the former mill site have recently been sold, even though the cleanup is not completed.

The City of Fort Bragg's ongoing process of amending the Local Coastal Plan is jostled by each new sale announcement. We want to see a careful development process cognizant of scale and restorative opportunities. The negative impact of a toxic mill site would be significant on our existing town.

We understand that selling off parcels is not unprecedented and that these parcels will pass through many layers of institutional scrutiny before they are developed, but, we want you to understand how strongly our community feels that the cleanup be completed before any development begins.

The good news is that the State Department of Toxic Substances Control is requiring G-P to take additional toxic sediment samples and will include sea level rise in their analysis of the long-term effectiveness of the eventual Remedial Action Plan. The community desire to daylight creeks and restore the headlands to its natural state highlights the importance of a thorough cleanup to residential standards.

The coastal Native American community shares this concern. They look forward to a time when their traditional cultural practices will again be performed on a thoroughly cleaned up and naturally restored Fort Bragg Headlands.

For the online petition, please go to:

<https://www.change.org/p/coastal-commission-save-400-acres-of-fort-bragg-headlands-clean-up-first-for-a-healthy-mendocino-coast>

Please join us in seeing that the Fort Bragg Headlands are properly cleaned up - for the health and safety of all our people and our environment.

Thank you for your attention to this important issue.

Fort Bragg Headlands Symposium

SAVE 400 ACRES OF FORT BRAGG HEADLANDS: CLEAN UP FIRST FOR A HEALTHY MENDOCINO COAST

Clean up first! Final plans for the Fort Bragg Headlands mill site remain stalled and we fear that the City will allow G-P to sell off which ever parcels it can and then walk away from the toxic remainder. We insist that the mill site be cleaned up before parcels are sold and developed. Further, we call for an overall plan that includes natural restoration, daylighting of Maple and Alder creeks, and protection for both the headlands and the ocean as well as public open space protected for generations to come.

The well being of the Northern Mendocino Coast is entirely dependent upon a healthy ocean and natural landscape, which requires protection of our coastal resources. The former G-P Mill Site, now owned by Koch Industries, encompasses almost one third of the City of Fort Bragg. Its reuse offers an opportunity to showcase the importance of thoroughly cleaning up our coastal resources that have been polluted by highly toxic materials extremely harmful to the health and well being of humans and wildlife both on land and in the ocean. This is particularly urgent because the Mill Pond has been identified as the most polluted area of the site and its failing dam leaves it highly vulnerable to earthquakes, tsunamis and sea level rise.

Please sign our petition and send it along to others.

Comments

Name	Location	Date	Comment
Jim Tarbell	Caspar, CA	2019-06-04	"A healthy Mill Site is the key to althy future for the Mendocino Coast"
barbara kalina	Fort Bragg, US	2019-06-05	"Koch Brothers have deep pockets--let's hold them to clean up responsibility!"
Helene Chalfin	Caspar, CA	2019-06-06	"You can't have a tourist and community site laden with toxins. Clean it up, and make it safe."
George Reinhardt	Fort Bragg, CA	2019-06-06	"The old G-P mill closed in 2002. The delays must end. Our community's voice can make a difference. Clean up the mess, daylight the creeks and restore the health of the Fort Bragg Headlands."
maureen martin	fort bragg, CA	2019-06-06	"I have grandchildren who deserve a future. Without proper environmental protections there is not a future for any of us."
Rhoda Teplow	Mendocino, CA	2019-06-06	"The Koch Brothers are responsible for the toxic waste they left on our coast. They are the ones who must clean it up. They are the ones with the money. Fort Bragg is a small town without the means to protect its citizens from the deadly affects of these toxins."
Anna Marie Stenberg	Fort Bragg, CA	2019-06-06	"After 100 years of toxic pollution this site should be cleaned. People should not be invite to walk on a toxic mess."
Robert Dease Jr	Caspar, CA	2019-06-06	"Clean up is a must before anything else moves forward."
Sharon Bowers	Fort Bragg, US	2019-06-06	"Together we can bring change to our community and planet!"
Camille Parsons	Fort Bragg, CA	2019-06-06	"Let's do this!"
David Gurney	Fort Bragg, CA	2019-06-06	"The Koch brothers are scofflaws, ignoring their responsibility to clean up after their company. They have the money, and then some to do the right thing. Unfortunately, we must force them to do so!"
Ellie Green	Fort Bragg, CA	2019-06-06	"I agree wholeheartedly. The site MUST be cleaned up, asap! It MUST be done before any "development" is allowed."
Kay Rudin	Westport, CA	2019-06-06	"WHY HAVE WE NOT HEARD ANYTHING ABOUT MAKING THE FORT BRAGG MILLSITE A SUPERFUND SITE???? Instead we have jolly public "events" ~ hikes, open house, picnics, etc. ~ & a lot of 'development' hype. THIS PLACE IS A DANGEROUS TOXIC SITE. It must be treated as such. BIG Warning signs would be a (conservative) START... make it openly obvious that this is NOT a healthy place for CHILDREN, ATHLETES, ELDERS & FOLKS WITH IMMUNE SYSTEM COMPROMISES (i.e.: Everyone!)."
Roslyn Satten	Fort Bragg, CA	2019-06-06	"We need to clean up our beaches and get the Koch brother to pay for it"

Name	Location	Date	Comment
Fran Schwartz	Mendocino, CA	2019-06-06	"I walk on the Headlands and walk to be sure toxic areas are fully cleaned up."
Don Lipmanson	Sebastopol, CA	2019-06-06	"As a former Mendocino County planning commissioner (5th District, 2000-06), I am aware that this site was badly polluted with chemical toxins during GP's ownership of the mill and surrounding lands. The site needs a major hazmat cleanup before it becomes safe and suitable for further uses."
agnes woolsey	US	2019-06-06	"Thanks for this important fact!"
John Gallo	Fort Bragg, CA	2019-06-06	"I'm signing this because I agree with the overall sentiment, if not every word. Cleaning up the Headlands is just plain common sense! It is beautiful out there."
Meghan Miller	Fort Bragg, CA	2019-06-07	"The future success of our small town depends on the proper care and use of this land."
Tina Krenov	Fort Bragg, CA	2019-06-07	"It's my world."
Lisa Fredrickson	San Francisco, CA	2019-06-07	"Get it clean and keep it open! Let's protect these beautiful headlands together."
Sharon Doubiago	San Francisco, CA	2019-06-07	"I'm signing this petition because it needs to be its healthy natural beautiful self and we need it for our selves."
Anne Bruhner	Comptche, CA	2019-06-07	"I want Fort Bragg to become a beautiful seaside community where the headlands are open and available for safe usage"
Elly Simmons	San Francisco, CA	2019-06-07	"Elly Simmons"
Angelika Seibert	Mendocino, CA	2019-06-07	"I care about the Earth. I live here. They bought it promising they would. It's never too late to start making a difference, to turn to the Light and help this planet. Let's do it! Thank you 💎"
Margaret Paul	Fort Bragg, CA	2019-06-07	"Clean up first; then develop."
Alice Root	Rough and Ready, CA	2019-06-07	"I want the beautiful coast to be available and healthy for my grandchildren and family"
william piercy	Fort Bragg, US	2019-06-07	"I signed because the Mill Pond contains deadly dioxin (same as agent orange) in high concentrations that haven't been fully addressed other than to place a short fence around the pond. Over time the toxins will be forgotten and the fence will be ignored and fall apart"
Leu Leung	Fort Bragg, CA	2019-06-07	"As a non-native settler in Shebelna Pomo territory, I am obliged to advocate for the cleaning up of these toxic sites, amongst these sacred places that have been desecrated by the extractive industry of logging. The Shebelna Pomo continue to live in the vicinity of the headlands and are highly vulnerable to the toxicity of the millsite."
Tim Derry	Potter Valley, CA	2019-06-07	"If not now, never. We cannot afford to lose this"
Carole Freeman	comptche, CA	2019-06-07	"Beauty of our headlands must be more than 'skin deep.'"

Name	Location	Date	Comment

Nick Brana	McLean, VA	2019-06-07	"Clean up the coast!"
Gayle Greene	El Cerrito, CA	2019-06-07	"That land should be as pure as it is beautiful; and anything I can do to cause the Kochroaches trouble, I'll do. They are so evil."
Mark Welther	Clayton, CA	2019-06-07	"It's a crime that these precious acres have been locked away from the public because industrial polluters won't take responsibility for their past actions."
Carol Thompson	Middletown, US	2019-06-07	"Seems the least we can do in our efforts to cherish our beautiful ocean."

Aline Jalfim	Fort Bragg, CA	2019-06-08	"It's so important"

Mary Kay Benson	Chico, CA	2019-06-08	"The well being of the Northern Mendocino Coast is entirely dependent upon a healthy ocean and natural landscape, which requires protection of our coastal resources. The former G-P Mill Site, now owned by Koch Industries, encompasses almost one third of the City of Fort Bragg. Its reuse offers an opportunity to showcase the importance of thoroughly cleaning up our coastal resources that have been polluted by highly toxic materials extremely harmful to the health and well being of humans and wildlife both on land and in the ocean. This is particularly urgent because the Mill Pond has been identified as the most polluted area of the site and its failing dam leaves it highly vulnerable to earthquakes, tsunami and sea level rise."
