Commercial Property Information Guide SUBMISSION FORM

The City of Fort Bragg frequently receives inquiries from entrepreneurs looking to start, relocate or expand a business in the City. In an effort to connect these entrepreneurs with available commercial spaces, the City will create an information guide for commercial properties that are either available for sale or lease. The information guide will include facts relating to zoning, permitted uses and utilities for an available property, as well as basic info on property development. By filling out this form, you are requesting the City prepare an information guide for a given property and distribute the information publicly to interested parties. Please note that only fully-completed forms will be accepted for the creation of an information guide, and only properties within the Fort Bragg city limits will be accepted.
