Approve Scope of Work for a Request for Proposals to Secure Professional Services for Broadband Infrastructure Network Design and Engineering

The City of Fort Bragg has been awarded grant funding by the California Public Utilities Commission (CPUC) in the amount of \$479,529.00 from the Local Agency Technical Assistance (LATA) grant program. This funding is to be used for pre-construction broadband infrastructure planning that will prepare the City to bring reliable broadband service to unserved/underserved households and businesses. The City seeks to contract with a knowledgeable firm to finalize network design and develop construction-ready infrastructure plans.
